

RITOBRATA BOSE

.NET Full Stack Developer | ASP.NET Core | Web API | Angular | SQL Server
Bhubaneswar, India | boseritabrata100@gmail.com | +91-7439065051 | LinkedIn | [Leetcode](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with industry experience in **C#, ASP.NET Core Web API, Entity Framework Core, Angular, SQL Server**, and **RESTful API design**. **Hackathon winner** with exposure to **ML and LLM-based solutions** — actively seeking new opportunities to deliver high-impact engineering at scale.

TECHNICAL SKILLS

Languages:	C++, C#, SQL, JavaScript	Backend:	ASP.NET Core Web API, Entity Framework Core, ADO.NET, REST APIs
Frontend:	Angular, Bootstrap, HTML, CSS	Database:	SQL Server
Tools:	Git, GitHub, Visual Studio Code, Swagger	Concepts:	OOP, DBMS, OS, Computer Networks, System Design, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

LTM (Formerly LTIMindtree Ltd.) | Bhubaneswar, India | **Software Engineer** | **November 2025 – Present**

- Developed secure, scalable 5+ RESTful APIs using **ASP.NET Core Web API** for enterprise-level business operations.
- Implemented **JWT-based authentication and role-based authorization**, strengthening system security and preventing unauthorized access across multiple modules.
- Designed and managed **relational SQL Server databases** using **Entity Framework Core** for efficient data access.
- Built dynamic, responsive **Angular SPA components** with Bootstrap, significantly improving user experience.
- Contributed to Agile Scrum processes including sprint planning, code reviews, and feature delivery within timelines.

KEY PROJECTS

Project Requirement Management System | C#, ASP.NET Core Web API, Entity Framework Core, Angular, SQL Server [Link](#)

- Architected full-stack enterprise web app using **Controller–Service–Repository layered architecture**.
- Implemented **Angular Auth Guards and JWT role authorization** to secure frontend routing and API endpoints.
- Built modular, reusable Angular components with high-performance backend services handling complex SQL Queries.

EcoSaviour – Carbon Footprint Tracker, Smart Waste Classification & Spread Awareness | Next.js, Tailwind CSS, ML Algorithms (Supervised), LLMs [Link](#)

- Led frontend UI/UX using **Next.js and Tailwind CSS**; integrated supervised ML algorithms and contributed to **LLM based voice assistant** features for smart waste management.

ACHIEVEMENT

Winner – Hack4Bengal 3.0 Hackathon (IDX – AI Apps Development Track)

Secured **1st place** in the **IDX Track** by building **EcoSaviour**, an AI-powered carbon footprint and waste management platform. Demonstrated expertise in full-stack development, ML integration, and LLM-based voice assistant solutions under competitive hackathon conditions.

EDUCATION & TRAINING

B. Tech – Computer Science Engineering JIS University 2021 – 2025 CGPA: 9.1 / 10	Professional Training Full Stack .NET Development – C#, ASP.NET Core Web API, Entity Framework Core, Angular, SQL Server, REST APIs, Advanced Database Design
